

Project: **Place of Production Surveillance Visit.**

Client: **Aquarius Marine Coatings Limited.**

Office: **Southampton**

Client's Order Number: -

Date: **12 October 2016**

Order Status: **Complete**

Inspection Dates

First: **26 August 2016**

Final: **26 August 2016**

This statement is issued to **Aquarius Marine Coatings Limited (AMCL)**

to certify that, at their request, the undersigned surveyor did attend their premises at Shillingstone, Dorset, U.K., on the date shown, for the purpose of conducting a surveillance visit to the manufacturer's works.

The visit was made in order to progress an application by AMCL for Lloyd's Register recognition of a coating product per Lloyd's Register procedures.

Product: "**Coppercoat**".

#### Scope

1. Review of the Coppercoat overall production process.
2. Review of materials sourcing.
3. Review of product labelling and packaging.
4. Production records documentation review.
5. Overall assessment of quality control measures at AMC.

The Coppercoat product was found to comprise the three off materials being copper powder, base epoxy resin and resin hardener. The materials are combined by the end user to form the Coppercoat "paint" for application.

All materials were found sourced by AMC, to their order, from two off ISO 9001:2008 certified manufacturers (UKAS accredited certification bodies).

The materials were found sourced from single suppliers of long standing relationship with AMC.

The resin and hardener are of AMC proprietary formulation.

Each batch of copper powder was found supplied with a certificate of analysis for particle size, apparent density and chemical content.

Labelling and packaging of product were considered satisfactory including batch identification.

Documentation review indicated satisfactory production records were being maintained.

Lloyd's Register Group Limited, its affiliates and subsidiaries and their respective officers, employees or agents are, individually and collectively, referred to in this clause as 'Lloyd's Register'. Lloyd's Register assumes no responsibility and shall not be liable to any person for any loss, damage or expense caused by reliance on the information or advice in this document or howsoever provided, unless that person has signed a contract with the relevant Lloyd's Register entity for the provision of this information or advice and in that case any responsibility or liability is exclusively on the terms and conditions set out in that contract.

The quality control system for the Coppercoat product was considered to meet with the requirements of Lloyd's Register for recognition of a coating product.

P. McKinnon  
Surveyor to Lloyd's Register EMEA

a member of the Lloyd's Register group.
